

— T — p1 - - p2

Substrates:

● W1921

○ a-Al<sub>2</sub>O<sub>3</sub>-SS-10x10mm<sup>2</sup>-(BS 6060/19)

Targets:

2: ZnO+1%Ga<sub>2</sub>O<sub>3</sub>

1: ZnO

3: Ga<sub>2</sub>O<sub>3</sub>+1%SiO<sub>2</sub>

Layers:

| # | Target Number | Laser Pulse Count | Laser Pulse Frequency (Hz) | Target Position (mm) | Pressure Set Point (mbar) |
|---|---------------|-------------------|----------------------------|----------------------|---------------------------|
| 1 | 2             | 300               | 1                          | 8.5                  | 0.016                     |
| 2 | 2             | 10000             | 15                         | 8.5                  | 0.016                     |
| 3 | 1             | 20000             | 15                         | 9                    | 0.016                     |
| 4 | 3             | 30000             | 15                         | 9.5                  | 0.001                     |

Gas: O<sub>2</sub>
